## Deer & Animal Repellents

### Bobbex Deer Repellent

Bobbex Deer Repellent is a topical, proven effective foliar spray used to deter and prevent deer, moose, and elk from browsing and causing other damage to ornamental plantings, shrubs, and forest trees.

Safe for use on the most sensitive plantings and are harmless to all wildlife including humans, pets, birds and aquatic life.

Bobbex is environmentally friendly, using only natural ingredients that WILL NOT WASH OFF.

Bobbex works by smell and taste aversion, and is classified a fear repellent. The combination and multiple redundancy of repelling ingredients make Bobbex a superior product over competitors.

Bobbex has been independently tested against ten (10) known competitors and was found to be 93% effective, second only to a physical barrier.

(\*See <http://www.bobbex.com/effectiveness-of-bobbex-vs-other-repellents/>)

**Proven  
BEST DEER REPELLENT  
on the market**

### Bobbex-R Animal Repellent

Bobbex-R Animal Repellent is effective in safely preventing Rabbits, Squirrels, Chipmunks, Groundhogs, and Voles from devastating landscapes and gardens.

Easy-to-use Bobbex-R, small animal repellent formulation, is all natural, environmentally friendly and safe for use in protecting ornamental plantings in landscapes and gardens. It is harmless to all wildlife including humans, pets, birds and aquatic life.

The product is proven effective and works through the use of smell and taste aversion. Bobbex-R will not burn plants or wash off regardless of rain, snow or watering. It is readily diluted in water and applied with a pressurized sprayer.

This product can be used on low lying vegetation, flower beds, gardens and is recommended as a bulb-dip to deter underground damage afterplanting. Spray Bobbex-R at the mouth of burrows and holesto prevent animal re-entry.

### Try our Bobbex-R Bulb Dip Program

Use Bobbex-R to discourage underground bulb damage from deer and other herbivores. Before Planting:

- Remove all loose and dried plant tissue from around the bulbs
- Dip bulbs in straight concentrated Bobbex-R (right out of the bottle)
- Allow bulbs to soak for 3 to 5 minutes
- Remove bulbs from Bobbex-R concentrate and allow them to completely air dry

### Bobbex Rose Deer and Insect Repellent

Bobbex Rose Deer and Insect Repellent is an all natural, environmentally friendly, dual purpose spray repellent that stops deer from feeding on your roses through taste and smell aversion.

The product also simultaneously repels insects, such as aphids, mites, japanese beetles, leafhoppers, greenflies and sawflies, which can be damaging to roses.

This product is compatible with nature and is not classed as an insecticide. It is harmless to all wildlife including humans, pets, birds and aquatic life. Bobbex Rose will safely reduce the need for additional insecticides, pesticides and fungicides, thereby providing a healthier environment for roses.

Bobbex Rose also reduces the severity of black spot and powdery mildew on roses and other flowers.

Bobbex Rose WILL NOT WASH OFF in rain, hosing, or irrigation. It is readily diluted in water and applied with a pressurized sprayer.

**This product is a must have for  
all rose lovers to use in their  
gardens**

**Bobbex Repellent sprays are topical, all natural, effective and safe to use on all plants.**
